Subject: EPA Meeting with PVSC, Newark, Kearny, Harrison and East Newark on 6/28/17

This is to confirm our meeting on 6/28/17 at 2-4 p.m. to discuss the remedy for the lower 8.3 miles of the Lower Passaic River, part of the Diamond Alkali Superfund Site. The meeting location is 290 Broadway, Room 27D (27th floor), New York, NY.

Attached is an agenda and supporting materials from the Record of Decision that EPA issued in March 2016 establishing the selected remedy for the lower 8.3 miles. These materials will form the basis of our discussion on Wednesday.

In order to facilitate your entry into the EPA building, I need to provide the names of the non-EPA attendees to our building security. If you have not done so already, please send me the names of your attendees. Also, attached is an overview of the building's security procedures that you will encounter on Wednesday.

Please let me know if you have any questions. My phone number is 212-637-4427.

If there are any issues with building entry on Wednesday, please call me at my work number above, or at my cell 914-912-7293.

Alice Yeh
